

Preauthorized donations and on-line donations made so simple!

Collecting Donations

One of **Perceptech Payment Solution**'s specialities is in helping you collect your donations **fully** and as quickly as possible. Perceptech works in collaboration with different firms specialized in managing donations thereby enabling us to offer you a **turn-key solution**.

1685 Fleetwood Street, Suite 200, Laval QC H7N 4B2

■ WHAT DOES A TURN-KEY SOLUTION MEAN?

Whether or not you have merchant numbers for Visa™ and MasterCard™, **Perceptech** can help you obtain merchant numbers at privileged rates and with the lowest fees available in the market.

Whether or not you are using software for managing donations, **Perceptech** provides software through a secured website allowing you to transmit your transactions. Or, your supplier can add a module that permits to create a file containing donations made through preauthorized payments in the donor's bank account or through credit card.

The file which is sent to **Perceptech** through a secured way is processed according to the dates identified in the file. The total amount of the donations collected is directly deposited into your account after which you receive a notice of the transaction carried out.

This way, you benefit from unique and recurrent donations on credit card and withdrawals from the bank by **using only one system**.

■ FURTHERMORE

Perceptech offers you an on-line service for your donations starting from your website by simply using a hyperlink. The web page received through this link is put up on a secured site where **Perceptech** will send your donor to a personalized page using all the features of your website to prevent any uneasiness that your donor may feel due to an intrusion of a new site throughout the procedure.

■ HOW DOES THE ON-LINE DONATION WORK?

The donor will see a form of enrolment appear with your logo and will have to fill in the necessary fields in order to be identified. The donor will then have to choose the method of payment desired:

- a) **Donation by Credit Card** where the donation will directly be sent into the account you have identified in the enrolment as Visa or MasterCard merchant.
- b) **Donation by preauthorized payment from bank account** with the amount and frequency desired, which will then be sent directly into your account.

Your donor will then receive a confirmation of the donation made and you will be sent a notice by e-mail to connect to **Perceptech**'s system in order to obtain details of the donations made throughout the day. You can then download the report in order to update your data. If you are using **Perceptech**'s software, this will be updated automatically. If you wish, **Perceptech** can provide the receipts for on-line donations.

■ TWO SERVICES, ONE PROVIDER

Starting today, thanks to Don-Matic, your donor has now two possibilities in making a donation and you will only use one system.
